

From the President;

Hello my fellow owners and renters. The Park Lane board, have done their best to make our building a beautiful place to live. But it's up to all of us to keep it that way.

People continue to throw cigarette butts off of their balconies. Cigarette butts have even been found in the water fountain in the garden. Who does that and why? Being an owner or renter should make no difference. We all want to live in a clean environment and be proud of our homes.

So I ask all to chip in. Put your cigarette butts in an ashtray. Don't throw your chewed gum in the plaza. Put your garbage in a garbage can. Please recycle properly.

Thank you all very much for your cooperation.
